

Case Study: Bibby Financial Extraction Canopy

Project Brief:

To design, manufacture and install a bespoke kitchen ventilation canopy and extraction system.

Vortex designed, manufactured and installed a bespoke extract canopy and extraction system at Bibby Financials new staff canteen in Banbury. The extraction included fire rated ductwork and discharge acoustic louvre.

Features:

Bespoke canopy compliant to DW172 - featuring UL listed baffle grease separators, integral grease capture containers, high efficiency LED lighting, fire rated duct conforming to method 3 requirements BS 5588 part 9 and tested to BS 476 part 24.

Full Solution:

Extract canopy, dishwash condense canopy, stainless wall cladding, extract fan, fire rated duct and acoustic louvre. Designed, manufactured and installed by Corsair.
